

Dear Parents,

The new academic year is about to begin in a way we could never have imagined even a month ago. Yet, we must learn from every moment of life and make our lives as meaningful and happy as we possibly can, shouldn't we? The school has been trying to find ways that will enable children to continue with school-work from home. Lessons have been carefully worked out by teachers, but it is a virtual school where you, dear parents, will have a crucial role to play, that of Parent-Teachers.

Teaching, lessons, interaction with children and parents will happen through Edmodo.com.

Please follow the guidelines given in **Instructions for joining online classes** on the school website.

The following link will help you to understand how it works. As your children are from Junior school, the parent can login for them from the student login id as all their work should be parent supervised.

The Edmodo Tutorial for Students:

https://www.youtube.com/watch?v=v815SAAtXBBs&feature=emb_rel_end

The teaching-learning plans are child-friendly and contain videos, Power Point, quizzes that are designed to reinforce and enrich skills while school is closed. They are NOT meant to add stress to an already difficult time in our lives and you will not be required to take a printout.

The secret to keeping children gainfully occupied is to make a routine. Learners are used to following a routine, so do make a timetable. Start with a:

- Fixed wake-up time
- Fixed School Work Time
- Break time
- Dedicated time for play and reading
- Fixed screen time

Do identify a fixed and quiet place where your child can, with you, attend our online classes.

Please feel free to communicate with us if you have any questions or concerns.

Finally, do take this time as a period of bonding between you and your child. Share your concerns with him/her and communicate with your child as a friend who is responsible and caring.
