

A peek into Design Thinking and Colleges of Canada

SRIANS keen on Design as their future profession had an opportunity for an interactive session on **Design Thinking** by Professor Bulbul Chaudhary, ISDI school of design & innovation under the aegis of ATLAS Skilltech University on 1st July, 2022. Professor Chaudhary explained the concept of design and innovation with citing examples of everyday products designed in a better way for aesthetics and usability.

Students of Class 12 met the representatives of **Toronto Metropolitan University** and **Ontario Tech University** of Canada and learnt about UG study opportunities in Canada, the co-op facility and the internships that come along with the courses offered by the universities.
