A peep into the world of toddlers of Sri Sri Academy

Spread over two days Upper Nursery children proudly walked into school holding on to their daddy's hand to spend time together in their respective classrooms.

Little Srians of Upper Nursery spent an enjoyable hour with their daddy in the classroom helping them to do simple hands-on activities which is part of their curriculum.

The day began with a welcome song by the children followed by them handing a token of love to their father, a special badge for the first superhero in every child's life. This was followed by exercise and prayer. Post which father and child got busy

with material work. They even made a surprise craft for the mother to thank her for always caring for them. The day came to an end with dancing to some fun songs and experience sharing by the fathers.

The beaming smiles on the faces of both the children and their father was reflective of the amazing time they

spent together.

We hope that fathers spend more time with their children so that they grow up to be secure and confident individuals. The success of the event lies in the positive feedback that we received from the fathers who wrote that they cherished every moment spent here and reliving their childhood days.
