

Sri Sri Academy

November 14 is a special date in a child's yearly calendar. All students look forward to this day and await the surprises in store for them at school. After missing the offline fun for the last two pandemic years, children at Sri Sri Academy were thrilled to be a part of the Children's Day celebrations this year.

The little Srians were surprised when they saw their teachers sing and dance to the jazzy musical beats. They roared with laughter and jumped with joy when their teachers mimed and acted just like them.

In the primary section, apart from gathering information about the vision of Pandit Jawaharlal Nehru and relating it to the present times, the children enjoyed the lovely dance performance, the soulful medley of songs and the thoughtful English and Hindi skits, beautifully enacted by their beloved teachers on stage. Viewing their teachers in the various avatars^{S134} was a treat for these innocent souls. The celebrations continued in their respective classrooms with various mindful games and Bingo prepared especial-

ly for them. Children thoroughly enjoyed the fun packed day and left in a joyous mood.

Every adult has a child within and maybe that is the reason teachers across celebrate Children's Day with such enthusiasm. The middle school teachers too made the day memorable for their learners by presenting a short programme which had a melodious medley of songs and a vibrant dance performance. The highlight of the day was the 3D movie show which transported the excitement of the students to a different level altogether.

Srians may have come to school with empty bags but left with bags full of memories.
