

DEPTH

Behind every kind of darkness
There's a ray of light
Behind every reason to scowl
There's a reason to smile
And to every regret in life
There's always a lesson in disguise
With every single defeat
Come multiple victories
And every challenge we face
Help us grow more
With each passing day
We keep growing stronger than before
So keep your head up high
And keep moving on
Cause Life is like a journey
Where there are lessons to learn
And problems to be solved
And most importantly of all
With memories to cherish through it all
Trisha Bothra, Class VII, Sri Sri Academy

LIFE OF LIFE

| | | | |
|---|--|--|---|
| Attitude is a blessing, Water is life Without the two we would not thrive. Attitude, courage, and sympathy | Always lead us ahead, Without the three no one can achieve success. Water is the life of life, | It comes down as rain, The existence of water can never go to vain. By this poem we understand | Water and attitude are alike And it's needed in the game called life. Jayasmitta Nag, Class VII, Sri Sri Academy |

NIGHT

| | | |
|--|---|--|
| The night sky Oh! What a treat to the eye The whole world, fast asleep As the stars gleam, through the windows they peep Darkness bounds Beauty surrounds The constellations, so surreal | The moon lights up the whole yard Speculating everything, near and far To shine in the darkness, it will preach As wolves bawl, for the love they will never reach Late night conversations with the moon | About how it all came to an end so soon The moon drunk monster Beautiful yet strange That dreads the light Howls its melancholy It witnesses everything Quiet and serene. Tanvi Balasaria, Class VIII, Sri Sri Academy |
