

# Sri Sri Academy, Kolkata

■ Sri Sri Academy, Kolkata, organised an activity day for Kindergarten tots on February 11, in an effort to make them energetic and teach them some important life lessons.

The kids created a world of creepy crawlies, dressing up as different insects and taking part in various races as they celebrated the arrival of the season of fresh flowers.

Winning or losing was not the agenda of the day. What mattered was having a good time.

Parents were there in full force clapping and cheering

all along.

Children performed a synchronised drill to soundtracks, *Dreamers* and *Feel the Magic*. They learnt the importance of teamwork, patience and how to stay focussed.

The guest of the day was Pooja Surana Dugar, founder of playschool Leap Years.

Each child got a badge and a gift.

“Spring Parade was not a competitive event. We don’t want children to compete at this age. We want them to participate and learn something new,” said principal Suvina Shunglu.
