The Annual Sri Gurotsav fest 2023 is the only Kolkata event that celebrates teachers. A teacher said, "We will keep coming back to participate every year."

The festival honours the birth anniversary of our founder Sri Sri Ravishankar ji, who also believes that life

should be celebrated, even if it is the life of a teacher.

On May 13 the fest commenced with the traditional ceremonial welcome and a song by some teachers of Sri Sri Academy. Ten schools from across the city, including the host school evinced 'Synergy', which of course was the theme of the day's celebration.

Among the nine participating schools were Birla High, Indus Valley World School, the Frank Anthony Public School, The Heritage, The Future Foundation School, Calcutta Boys' School, South City International, Asian International School and Ballygunge Shiksha Sadan. It was a

grand congregation of talented teachers competing in seven categories - Dialogues in Dance, Transforming Reality, Patachitra, Plato Up (a culinary event), Sound Spirit (a musical event) and quiz. In addition, there was football for the gentlemen and ping-pong for the lady teachers.

The audience was highly appreciative of all the performances, which encouraged the participants to do even better. Medals and certificates were awarded to the schools according to merit. Indus Valley World School stole a march over the rest again this year, with an incredible all-round performance across categories. Some of the judges who were present

on the occasion were Jamshed Nasiri, Jaya Seal Ghosh, Nondon Bagchi, Upal Sengupta, Anukta Mukherjee Ghosh, Naba Kumar Chakrabarty, and more. Sri Gurotsav does not just bring talented souls together, rather, it reinforces the belief that teachers continue to play a significant role as architects of a civil society.
